SUMMARY

Dynamic Full Stack Developer (Frontend Focused) with proven expertise in React.js, Next.js, and responsive design. Spearheaded a modern website launch for K.A.V Textile Global, boosting customer engagement, and led front-end mentoring at Idonline Services. Skilled in API integration, performance optimization, and team leadership. Offers innovative, scalable web solutions to drive business growth and enhance user experience.

EXPERIENCE

Full stack developer

K.A.V Textile Global LTD

August 2024 - Present, Lagos, Nigeria

- Spearheaded development of the company's official website using Next.js, Node.js, Express, and PostgreSQL, delivering a modern and responsive digital platform.
- Built dynamic and responsive front-end components to showcase textile products, improving mobile usability and user experience across devices.
- Developed reusable React components with scalable architecture, reducing development time for new features by 20–30%.
- Optimized website performance using code splitting and lazy loading, reducing page load time by 30–40% and improving SEO visibility.
- Integrated APIs for product catalogs and customer inquiries, handling multiple data endpoints and improving user engagement and client retention.

Front-end Developer

SkilzSystems

April 2023 - Present, Abuja, Nigeria

- Developed and maintained responsive front-end applications using React and Next.js, improving application performance and user experience.
- Integrated multiple third-party APIs, enhancing application functionality and supporting dynamic data handling across features.
- Diagnosed and resolved 15+ complex front-end issues, improving application stability and reducing user-reported errors.
- Refactored and cleaned up codebase, improving maintainability and reducing code redundancy by 20%+.
- Collaborated with backend teams to ensure seamless API integration, improving data flow efficiency and system reliability.
- Optimized user interfaces for cross-browser compatibility and mobile responsiveness, improving accessibility across devices.

PROJECT

EmmaTech

Freelance Project for EmmaTech • [emma-tech.vercel.app/](#) • August 2024 - Present

- Designed and developed a modern web platform for EmmaTech, showcasing IT services including cloud hosting, remote support, and security solutions.
- Built responsive and user-friendly interfaces, improving accessibility across mobile and desktop devices.
- Structured and organized 5+ service offerings, improving navigation and user interaction.
- Optimized website performance and SEO, reducing page load time and improving search visibility.
- Implemented scalable front-end architecture, reducing future development effort and improving maintainability.
- Enhanced customer engagement by implementing clear service flows and call-to-action sections.

EDUCATION

B.Eng in Computer Engineering

Enugu State University of Science and Technology • Enugu, Nigeria • 2030

- Currently pursuing a Bachelor of Engineering (B.Eng) degree in Computer Engineering at Enugu State University of Science and Technology, Faculty of Engineering.
- Building a strong foundation in core engineering principles, computer systems, and software development through rigorous coursework.
- Developing practical technical skills and analytical abilities essential for a successful career in technology and engineering fields.

CERTIFICATIONS

Frontend Developer (React)

HackerRank • 2025

- Successfully completed HackerRank React assessment, demonstrating practical knowledge of React and front-end development best practices.
